

SUMMARY

As a Data Analyst with a unique blend of experiences, I specialize in harnessing data to drive strategic decision-making and operational excellence. With a curious mind and a strong drive for learning, I excel in identifying connections between data sets and transforming challenges into opportunities through meticulous attention to detail. My background in music production, education, tourism management, and entrepreneurship has collectively shaped my analytical mindset, and communication skills, and provided a distinctive perspective for data analysis in today's data-driven world.
